## Career Summary

An electronics and communication engineer from GITAM Hyderabad.

A software developer, with experience in technologies like C, C++, Java, web technologies, and Python.

Worked at Verizon Data Services India as a software developer. During my time here I worked as a full stack developer.

Summer training at Hewlett Packard (HP).

Member of GITAM Rotaract Chapter, and priorly worked for the Blue Cross.

Having knowledge in five languages has always proved helpful for me. As it allows me to communicate with a diverse audience with relative ease and cogency.

Other than Technology, my areas of interest are environment, history, philosophy, music and yoga.

## Expertise Summary

<b>Technologies</b>	Java, Struts, Web Technologies, C, Python, C++, SQL
<b>Domain</b>	Telecom
<b>IDEs</b>	Visual Studio, Eclipse, Atom, PyCharm and Android Studio
<b>Testing Tools</b>	JUnit

Hyderabad based software professional, with technology background in B-Tech E.C.E, have experience in product development.

- ❖ My 'Technological' background gives me the ability to provide solutions for enterprise applications.
- ❖ My intricate understanding of 'electronics and programming' helps me come up with the novel and efficient solutions to problems.
- ❖ Have a clear understanding of the 'working dynamics' of a MNC. My experience has thought me how to work with large teams.
- ❖ My ability to articulate thoughts 'clearly and evidently' has proved to be a great asset in the speedy implementation of work.

## Professional Experience

<b>Verizon Data Services Indian (VDSI)</b>	From June-2017 to April-2018 Ref: Manu Bhatia (SPM) Phone No: 9949555832, Email-ID: manu534@hotmail.com.
<b>Role</b>	Software Developer
<b>Technologies</b>	Java, Struts, Web technologies, iBATIS and SQL
<b>Domain</b>	Telecom

Verizon is a top telecom company and was ranked 15 by Fortune 500. At Verizon you find the best people in telecom domain and the teams here are well spirited and adventurous.

- ❖ I was asked to come up with a solution for organizing and structuring their unstructured data. Addressed this problem by creating a three-tier web application.
- ❖ Worked on CPI(Common Pricing Index) & MPI(Market Pricing Index), end to end application that helps the users create and update wireless and wire line plans for the costumers.
- ❖ There are multiple modules in this applications and I had the opportunity to create new ones and work on the pre-existing ones.
- ❖ Worked on technologies like JAVA, STRUTS2, Web-technologies and iBATIS.
- ❖ Tried automating the mail categorization system with the use of bucketization concept, implementation with Pandas in Python.
